

Love UnderDogs was set up by animal lovers who wanted to make the world a better place by helping and supporting some of the most unwanted, abused, neglected and voiceless dogs.

Making Happiness Happen

Our Story...

The journey started in 2011 with a visit to a dog shelter in Basov, Romania. Having seen the conditions locally, we had to help. Love UnderDogs was born and we have never looked back since!

In 2012, we started finding homes for dogs from the Victory shelter, whose lives had been nothing but pain and suffering, when all they wanted was love.

Great things can be achieved when we all work together towards a common goal, creating more happiness in the world. We welcome you to join us on this wonderful journey. It is a privilege to be able to make a difference and we would like to share it with as many of you as we can.

The Love Underdogs adoption program is part of a bigger picture aiming at changing the management of stray dogs in Romania, starting with a pilot operation.

Our colleagues in Romania have been making a difference in the Brasov area of the Transylvanian mountains for the past 20 years and we are privileged to work alongside such a dedicated team, as well as BMT Germany and the Brigitte Bardot Foundation.

With your support, we contribute to neutering campaigns, local education programs as well as support and supervision at two public pounds.

The Brasov pound in particular, previously one of the most notoriously cruel kill shelters in the whole of Romania, has been turned into a place, where dogs get basic care. They are all vaccinated and microchipped, and no euthanasia of healthy dogs have taken place since March 2013.

Every month, we send 4 tons of wet and dry quality food to our partners, as well as supplies collected.

In Addition, Love Underdogs fund vaccinations, medical care and ongoing improvements at our partner's private shelter.

Whilst we take great pride in finding good homes for our truly amazing dogs, our aim is to affect long lasting change in Romania with your support, in the hope that one day, all Romanian dogs will be adopted and cared for in their own country.

In the meantime, we are here to help on a small scale, wonderful dogs who have so little and deserve a chance of finding a loving family of their own.

The UnderDogs...

By adopting one of our Underdogs, you are opening your home and heart to a deserving dog, who will appreciate your love and care. Many have been abused, they are old or disabled, too big or the wrong colour, not the prettiest (although in our eyes they are all beautiful) or simply born in the wrong place at the wrong time.

The Love Underdogs team is small and we all know and love our dogs dearly. We care about their future and do everything in our power to set them up for a happy life and find them the best possible homes.

We keep in touch with our families post adoption and of course offer support wherever needed to the best of our ability.

Our dogs:

All our dogs are vet checked in the UK and treated if necessary before being up for adoption. Treatments in addition to the basics include dentals, orthopaedic and spinal surgeries, dermatological and ophthalmological issue. Any health concerns are addressed whilst in our care to the best of our abilities and in collaboration with some of the best veterinary practices and specialists in the UK.

The dogs are:

- Neutered
- Fully vaccinated
- Wormed
- Microchipped

In addition we provide:

- A European passport unless they come from the UK.
- A behaviour assessment by the UK team so they can be matched to the right homes.
- Rescue backup for life. This means that should you not be able to keep your dog for whatever reason, they need to come back to us and we will find them a new family.
- A comprehensive adoption pack with lots of advice on training, behaviour and diet. We are also available for advice post adoption.

By supporting Love Underdogs you are enabling us to do so much!
Thanks to your wonderful support we are able to do the following:

In the UK

- Transport dogs needing homes from Romania to the UK.
- Give our dogs the medical care that they need before being rehomed, including dental care, orthopaedic assessments and surgeries, neurology specialist care, ophthalmology and dermatology. Love Underdogs ensure that our dogs are given the best possible start to the next chapter of their lives.
- Provide our dogs with the comfort that they need whilst they wait for families to adopt them.
- Rehabilitate traumatised dogs.
- Offer post adoption support.

In Romania

- Send over 4 tons of food every month to feed the Brasov shelter and pound dogs.
- Pay for vaccines.
- Pay for extensive neutering campaigns.
- Cover the costs of 5 staff in the pound and the shelter.
- Fund improvements to the conditions at the shelter and the two pounds that we are involved in.
- Send medical supplies that we receive.
- Fund part of the day to day costs at the shelter.

Make a difference for the Underdogs

If you live near Southend Farm kennels, Waltham Abbey, Essex where our dogs are located and can spare a few hours every so often to take our dogs on walks, we would be incredibly grateful.

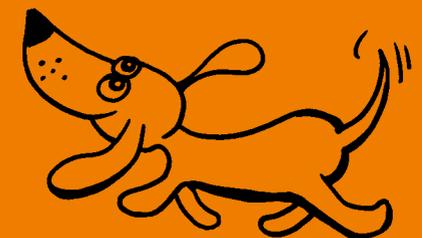

Life in kennels is not the same as living in a family.

Our dogs really enjoy spending time out and about, volunteering your time to them is not only very enriching for the dogs, but you will find it incredibly rewarding.

In Germany...

Love Underdogs and our German partners BMT share a shelter in Osnabruck, Germany, where some long termers reside in fantastic luxury accommodations. Whilst we strive to find homes for all our dogs, some of our friends, for various reasons, have found it difficult be adopted. In Osnabruck, our dogs who have been with us a long time are housed in individual large kennel houses, with underfloor heating and their own garden.

The shelter also acts as a landing point for dog transports arriving from Romania before being filtered out to the other BMT shelters located throughout Germany. This means that more dogs can be adopted. Love Underdogs cover half the running costs of the operation, and BMT manage it.
